- Myanmar (Intermediate)

MG WUNNA

SENIOR FULL STACK DEVELOPER

PROFILE

I'm a passionate Full Stack Developer with expertise in modern web technologies. My focus lies in creating elegant, user-centric solutions that combine beautiful design with robust functionality. I thrive on turning complex problems into simple, intuitive interfaces.

I am a self-taught developer who has built a strong foundation in software development through hands-on experience and continuous learning. I am passionate about staying current with modern programming paradigms and technologies through online courses, professional certifications, and practical project work. My journey proves that dedication and real-world experience can be just as valuable as traditional education.

With over 5 years of experience in web development, I've mastered technologies like React, Next.js, Node.js, and various cloud platforms. I specialize in building scalable web applications with a focus on performance, accessibility, and user experience. My approach combines technical expertise with creative problem-solving to deliver exceptional digital solutions.

WORK EXPERIENCE
